# Blake Woods Blake Woods Design

*Blake Woods is a fifth generation Texan with proud roots in Houston. "My grandparents owned a general store and they were both resourceful and spirited in their outlook on life. They taught me from an early age the value of having both technical skills and generosity and the importance of treating every customer with genuine warmth and kindness. As a designer, I draw on their legacy in the way I go about solving creative problems for my client's spaces."*

*After earning his degree in Interior Design from the University of North Texas, Blake honed his craft at three firms on Interior Design magazine's "Top 100 Giants". Blake was Principal at Houston's prestigious Ziegler Cooper Architects leading projects for many Fortune 500 companies.*

*Blake's passion for unique objects lead him to opening a one-of-a-kind curated emporium featuring rare objects, textiles, and furnishings to use in conjunction with his interior design studio.*

*Blake Woods Design and his award-winning Cricketwood studio have been featured in national and local magazines. His work can be seen throughout Houston on frequent home and garden tours.*
