Carlo M. Di Nunzio Di Nunzio, Lifestyle Architecture

Carlo M. Di Nunzio's experience encompasses both architecture, interior architecture and interior design with numerous awards and publications for his architectural and interior design projects.

Born in Somerville, New Jersey, he was raised in Toronto, Canada and developed a passion for architecture. He studied at Ryerson University in Toronto and in 1980 moved to Houston, Texas to broaden his career. In 1995, Carlo formed Di Nunzio Architects and in 2008, understanding that architecture is truly a lifestyle for his clients, he took his firm to the next level by creating Di Nunzio, Lifestyle Architecture.

Maintaining a portfolio of uniquely diversified work, Carlo Di Nunzio strays from a marketplace that often fosters uniformity. Rather, he seeks out and challenges clients to design solutions which are socially conscious and value minded, while anticipating and accounting for the changing needs of the end user.
