Amy Munger + Elizabeth Munger-Stiver Munger Interiors

Launched by two sisters in 2008, Munger Interiors is a luxury residential design firm that specializes in creating fresh, tailored, and timeless interiors. Our collaborative approach to each project proves the power of teamwork creates the most successful design. We strongly believe that beauty and luxury can be achieved while preserving functionality and livability. We listen carefully to our clients' needs and then work collectively to integrate our design aesthetic into their lifestyle. We are immensely grateful for the opportunity to fulfill our passion of creating beauty all around us.

Amy and Elizabeth's design work has graced the pages of Coastal Living, Luxe Interiors & Design and PaperCity. In 2015, Southern Living Magazine coined this dynamic sister duo a "Dream Team". When the pair is not designing they enjoy spending time with their family and traveling the world for inspiration.
