# Mel Poet Poet Interiors

*Mel Poet began Poet Interiors in 2000. Her early focus of working with clients on construction selections during home building, evolved to working with clients on their interior projects. A strong background of designing during the building process gave Mel the opportunity to establish relationships with her clientele that allowed full focus of the homes to reflect the individuality of that client.*

*Today, Mel will often still be brought in during the design/construction phase and begin integrating the client's current possessions while planning, sourcing and then installing new furnishings, art and accessories to complete the home. Her focus is always that the client's needs, personality and taste are at the forefront of the decision making.*

*A truly custom tailored bespoke home from start to finish is why so many of Mel's clientele come to trust her guidance and seek her services again and again.*
