LEADERS IN DESIGN

@ the Houston Design Center

Steve Howard/Steve Howard Designs

“ The wide variety of Houston Design Center showrooms has been an excellent resource for me over the years. Having so many products and vendors in one location allows me to access what I need efficiently and conveniently.

The quality of the showrooms is also a big plus. I'm able to provide my clients with top-tier products from the finest designers, manufacturers, and suppliers right here in Houston.”

Steve Howard Steve Howard Designs

Steve Howard is one of those unique designers with expertise in architecture, interior design, landscape design and construction. His sophisticated style and eye for detail can be seen in high-end projects from Nantucket to Carmel as well as internationally.

After beginning his career in commercial architecture and interior design, Steve opened Steve Howard Designs twenty-six years ago to pursue his first love, residential projects. Whether designing a new home from the ground up, high-rise build-outs, or renovations, Steve places emphasis on creating a life-style environment for his clients that are not only beautiful but enhance how they live their daily lives.

His award-winning projects are the result of an understanding of excellent design and how to combine all the elements—architecture, finishes, fixtures, bath and kitchen design, furniture, lighting—into exceptional spaces that are not merely current but pass the test of time.
