Peggy Stirman Le Bouquet Interiors

A vibrant collaboration between "trades" people, artisans and expert workrooms has made Le Bouquet Interiors thrive for a span of almost four decades. Ask Peggy for her two favorite words and she'll say "Transformation & Personalization"! She strives to listen carefully and translate individual tastes and habits into the cohesive vision her residential and commercial clients desire. Performance fabrics and durable flooring surfaces have changed her design world forever!

Peggy began her career path in the early 1970's with a BFA in Fine Arts (Performance Violin and 2 Dimensional Art), intending to be a fashion illustrator and an orchestral musician. Ultimately she found her passion in expressing the subtle nuances of color, texture, scale and rhythm for homes, banks, churches, and professional offices. She still sketches and practices complex 'orchestrations' every day!! february 201
