@ The Houston Design Center

Cheryl Baker/CDB Interiors

“Houston is such an amazing city for designers and The Houston Design Center is a great resource at our fingertips. With such fantastic product showrooms and representatives, this valuable and accommodating community is a one stop shop for all goods and services. It is a great place to complete projects, continue education and enjoy events.”

# Cheryl Baker CDB Interiors

*Design captured my interest early as well as how space and movement influence how we live. While at the University of Texas, I refined my skills and gravitated to the use of textiles, color and layering in the design process.*

*Connecting to our clients and their lifestyles drives my inspiration. My passion is for creating unique and functional spaces for family and entertaining, while dimension of color and texture is a way to capture our clients' personalities.*

*Working throughout the state of Texas has afforded me the benefits of a wide range of projects. From new builds, remodels and refreshed style, our designs transform the ordinary into aesthetically pleasing environments. Our growing business has continued to allow CDB Interiors to develop a wider perspective in our evolving design philosophy.*
