Upon arriving in Houston in 2013 I was instantly charmed by the Houston Design Center. The gardenesque quality of the center makes for such a pleasant day of shopping. The showrooms offer items that are so unique you feel as though you are on a treasure hunt and not just shopping commercially.

My clients enjoy that many sources offer pieces off the floor which, in addition, makes installation days that much easier on our team!

Jillian Sitter O'Neill Jillian O'Neill Interior Design

JOID was founded in 2002 and quickly established its niche by working on modern and luxurious, yet liveable residential spaces. Jillian's work has been featured in various design and lifestyle publications, including Elle Decor, Modern Luxury, Luxe Interiors, LX/TV and many more. Most recently JOID was named on the Luxe Interiors + Design 2015 Gold List.

Jillian has a discerning eye for fresh and timeless furnishings to accentuate both existing spaces or renovated architecture that is under her direction. Color, texture, scale and functionality are all crucial components of this process. Jillian now brings this signature aesthetic to her highly anticipated line of furnishings set to debut in 2016.

Upon graduating from The University of Illinois Jillian entered into a modeling career in Chicago. Working among the designs of Giorgio Armani, Tom Ford and Oscar de la Renta inspired her to apply her love of fashion and textiles to a career in interiors by way of Harrington College of Design. Many of her spaces are influenced by her eye for fashion which lends to her signature style of elegance and allure.
