Central Houston LEADERS IN DESIGN

Meg Lonergan/Meg Lonergan Interiors

We adore going to the Houston Design Center, Fixtures & Fittings is one of our favorite showrooms which we frequent almost weekly!

The Houston Design Center is our one-stop shop for not only wonderful stone and plumbing fixtures, but we can always find great furniture & fabrics!

Meg Lonergan Meg Lonergan Interiors

Since founding her company in 2009, Meg LeSueur Lonergan has become one of Houston's most in-demand designers, known for creating sophisticated interiors that highlight homeowners' sensibilities and personalities. Born in South Louisiana but uprooted at an early age, Meg lived abroad in Singapore, New Zealand, and France until she moved to Houston with her Kiwi husband. Her design ethos stays true to Southern elegance, tradition and history while reflecting her multi-cultural exposure. Clients turn to Meg for her keen eye to mix the old with the new, the classic with inventive, fine antiques with flea market finds, and eclectic with traditional. She creates unique designs by harmonizing her client's tastes and treasures with custom art, accessories, antiques, draperies and furniture.

Meg is very attentive to design details and takes a hands-on approach for every project whether it is a simple refresh or a new construction home. Meg Lonergan and her work has been featured in the Houston Chronicle, The Scout Guide Houston, Texas Home & Living, Better Homes and Gardens and House Beautiful, and on the cover of Luxe Magazine.
