

Audi  **Central Houston** Presents
LEADERS IN DESIGN
@ **The Houston Design Center**

Paul Kevin Dix / Paul Kevin Dix Associates

“The Houston Design Center has become the hub for design resources in Houston, Texas. It is easy to move about and find the professionals to help bring a project to completion.

I highly recommend the Houston Design Center to anyone that has not visited the center.”

Paul Kevin Dix Paul Kevin Dix Associates

Paul Kevin Dix, R.D., Allied A.S.I.D., is an award winning and published Residential Designer here in Houston, Texas. He works throughout Texas and the United States.

Paul Kevin says a house is just a house until you bring the personality of a client into it, then it becomes their home. The heart of the home is always the Kitchen and Great Room. These are the rooms where day to day living occurs and memories are made. When my team and I complete a home it should reflect the client and their wishes they have given to me in the first consultation meeting. One should never be able to tell that a client has hired professionals for their home and it should never have a "Signature Look". A client's home should truly be their own haven.

Paul Kevin wants to recognize his great team of professionals from Kitchen and Bath Concepts, DC Picou Designs, Manchester Carpet, Alyson Jon Interiors, Thorntree Slate and many more great people that help bring every project to life.
