Suzanne Duin, RID, ASID Maison Maison Design

Dynamic and ingenious, Suzanne Duin, is an established Houston-based ASID interior designer and owner of Maison Maison Design. Her design studio, situated above the Maison Maison showroom, is where she creates individual styles that are an expression of her clients' lives and interests.

Suzanne's residential practice and showroom are known for their distinct combinations of hand selected European antiques from her travels abroad and clever reinventions of peculiar objects. The fondness she possesses for past centuries craftsmanship leads her to recreate and design matchless pieces with sensible, yet rich details. Her love for antiques and their ability to mingle style and history is what inspired her to open Maison Maison in 1997. What she finds most rewarding is her clients' delight with the finished results.
