# John Kidd John Kidd Associates

JOHN BARRON KIDD... Founder and principal of John Kidd Associates has been fascinating Houstonians with his unquestionable talent for many years. Although Mr. Kidd's work is greatly concentrated on high-end residential design, he also adds hospitality design, legal and medical offices as well as apartment and condominium projects to his achievements. Kidd's unwavering success is largely due to his ability to interpret his client's needs and produce a result that is not only aesthetically pleasing but functional as well.

John Kidd's interest in art, architecture and design began taking shape during early college years at the University of Kansas where he received a Bachelor of Arts in Art History. Following summer studies in art history and architecture, in both France and Mexico, Kidd graduated from the University of Kansas and enrolled at the University of Arkansas to pursue his interest in design. Upon receiving his degree of Design from the University of Arkansas, Kidd was able to develop and nurture his talents as a design professional.

Mr. Kidd's first professional experience was as Design Associate at Moise Seligman Interiors in Little Rock Arkansas. In 1978, Kidd arrived in Houston and was appointed Assistant Store Manager at W & J Soane. One year later, he accepted the position of Merchandising Manager of Sakowitz Inc., where he remained until 1983, it was then that Kidd concluded his professional interest and abilities would be best fulfilled through the formation of his own company.

In 1984, Kidd founded the design firm, J. Barron Kidd Associates. Kidd's experience in art, design and retail have undoubtedly enriched his perspective and approach to design. Although the name of the company has changed since it was founded more than 18 years ago, the fundamental principles on which it was founded remain the same. A designer knows that he/she is successful when someone doesn't enter a room right away and say, "What a great room" but rather, leaves the room and says "By the way, who is your designer?"
